

**Summary of Substantive Changes
between the component standards
ANSI A118.10 “American National Standard Specifications for Load Bearing, Bonded,
Waterproof Membranes for Thin-set Ceramic Tile and Dimension Stone Installation - 2014”
And
ANSI A118.12, “Specifications for Crack Isolation Membranes for Thin-Set Ceramic Tile and
Dimension Stone Installation - 2014”
of the
2014 and the 2017 editions of
ANSI A108, A118, and A136, “Specifications for the Installation of Ceramic Tile”**

Presented to the IAPMO Standards Review Committee on April 9, 2018

General: There were no changes to either ANSI A118.10 or ANSI A118.12. The standards are however published as part of the 2017 version of ANSI A108, A118, & A136 “Specifications for the Installation of Ceramic Tile (Material & Installation Standards)”

Note: *The current editions of ANSI A118.10 and ANSI A118.12 are adopted from this compendium. The remaining standards in this compendium are not used for product listing at this time and have not been reviewed as part of this summary of changes.*
