Presented to the IAPMO Standards Review Committee on July 9, 2012

**General:** The changes to this standard might have an impact on currently listed products. The changes are as follows:

Section 9, Product Marking: Added the following marking requirements for fittings intended for transport of natural gas:

> **9.3** Fittings intended for transport of natural gas and meeting the requirements of this specification shall be marked with the 16-character gas distribution component tracking and traceability identifier in accordance with Specification F2897. The 16-character code shall be expressed in alpha-numeric format and Code 128 bar code format with a minimum bar thickness value of 0.005 in. or an alternative 1D or 2D bar code symbology as agreed upon between manufacturer and end user. All fittings shall have the 16-character codes marked or affixed to the product, product packaging, or any manner agreed upon between manufacturer and end user.
