Summary of Substantive Changes
between the updates dated January 31, 2013 and May 31, 2013 of
UL 1081, “Swimming Pool Pumps, Filters, and Chlorinators”

Presented to the IAPMO Standards Review Committee on July 8, 2013

General: Changes to this standard may have an impact on currently listed products. The major change
is:

- Added text to include in the instruction manual for storable pool pumps (see Section 52.5)

Section 52.5: Added text that is required to be part of an instruction manual for storable pool pumps as
follows:

8) (For storable pool pumps) CAUTION – To reduce the risk of electric shock the pool must
be installed no closer than 6 feet (1.8 m) from any electrical outlet. Do not place portable
appliances closer than 5 feet (1.5 m) from the pool.
